CHARGE FORWARD

WHY CHOOSE US?

At Six Sigma Development Solutions, Inc., we practice the Pareto Concept in our method of training the Lean Six Sigma Methodologies. We instruct 20% of the methodology that the practitioner will use 80% of the time. This allows us to condense our training while still producing a phenomenal Lean Six Sigma Change Agent.

CUSTOM TRAINING

PRIVATE TRAINING

SERVICES

Flexible to meet your needs

We host public training at over 52 sites around the globe. We will come to your site to train for your choice of the Lean Six Sigma Certification Levels. All our training can be delivered virtually, live in person, or a hybrid of both. We can customize any of our training to meet your organization's specific training needs. Our instructors are Lean Six Sigma Master Black Belts with real-world experience, focusing on skills that can be used on the job.

HYBRID TRAINING

PUBLIC TRAINING

All our courses can be held in a hybrid format (both virtual and live in-person)

We have public courses in over 52 training centers around the globe.

TESTIMONIALS

What our clients say

–Vivian Kaur Lüthi-Yang,
Process Excellence Officer
at Canada Post

“Six Sigma Development Solutions, Inc. has been Canada Post’s Lean Six Sigma training partner since 2018. The partnership has been extremely successful! They always ensure that their instructors are well prepared to deliver the training (both in-person and live virtual courses), and they have developed an effective and standardized DMAIC tollgate approval system that provides ongoing coaching support to our candidates after their training is complete.

I would recommend Kevin and his team to any organization that wants to succeed in their continuous improvement journey.”
